Movies can literally change the way we think when they mirror our lives and bring us closer to ourselves. One such movie is *Yes, But...* (*Oui, Mais...*) by writer/director Yves Lavandier. It tells the story of a teenager who turns to a warm-hearted psychotherapist for help as she tries to navigate her difficult family life.

After the screening, you'll have the rare opportunity to talk with the writer/director. He'll take your questions and explain why this film has become a favorite of French psychotherapists, who often prescribe it to their patients. *Yes, But...* is highly recommended for therapists, those undergoing or considering therapy, and anyone curious about the role films can play in healing our lives.

Yves Lavandier was born in 1959. He studied film at Columbia University under Frantisek Daniel, Stefan Sharff and Milos Forman. He has worked on a number of TV series and has written and directed puppet plays and several short films (including *MR. BROWN?*, *THE PERVERTS* and *LE SCORPION*). His first feature, *YES, BUT*, was released in 2001. He is the author of a renowned treatise, *WRITING DRAMA*, and regularly works as a script consultant. Yves Lavandier is married with four children.
